

VMARS Auction
Kineton Village Hall, Mill Street,
Kineton, Warwickshire CV35 0LB
Sunday 27th November 2011
10.30 a.m.- 3.30 p.m. (No entry before 10.00 a.m.)

THIS EVENT IS FOR VMARS MEMBERS ONLY

AUCTION CATALOGUE

This auction is being carried out on behalf of the relatives of the late John Coggins G3TFC. This is the second batch of equipment to be auctioned.

On this occasion additional lots brought by visitors will not be accepted on the day, but the auction will comprise this catalogue of the 'first' 100 lots, and other lots which may be inspected on the day. These additional lots will be auctioned as usual. Those listed in this catalogue are to provide an idea of the scope and quality of the auction, and it is to be expected that there will be a substantial number of other equipment offered.

Unless otherwise stated, all items are as seen, and have not been inspected in detail, so no warranty as to them being authentic, complete, or in working order can be implied.

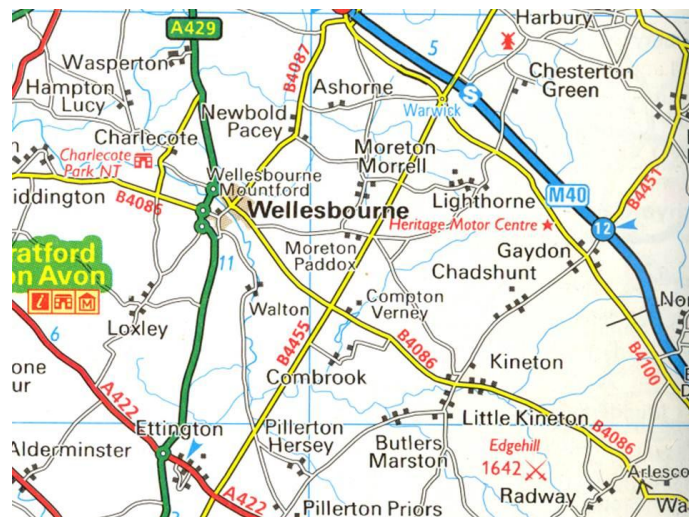

Buyers are advised strongly to check that mains operated items comply with current safety standards before connecting to the mains. Unless otherwise stated, no such checks have been carried out on equipment offered at this auction. Buyers should be aware that equipment may have been stored under damp conditions, with the risk of 'leaky' transformers which could trip RCCB protected mains supplies, or fail-to-chassis when powered. Equipment may not be adequately earthed, or earth connections may have corroded. Critical power supply components such as electrolytic smoothing capacitors require 're-forming' if stored for extended periods of time, resulting in spectacular failure if not treated accordingly! Some equipment offered in this auction operates at high voltage. Applying power to equipment which has not been dried out properly, or with accumulated dirt or corrosion, can damage the equipment whilst making it potentially hazardous.

Those intending to place bids at this auction will be issued with a bidding card before the start. All accounts must be settled by close on the day of the auction. **Those attending should be aware that the settling of accounts necessarily takes time and all are being asked to be patient and to allow sufficient time for this at the end of the day.**

Reserve prices will be at the auctioneer's discretion.

Getting to Kineton:

Kineton is signposted from junction 12 of the M40. Follow the signposted route via Gaydon. The Village Hall is in the centre of Kineton. For those who are unable to travel by car, the nearest railway station is Warwick, from where a taxi can be taken. The distance from Warwick is approximately 12 miles.

Vintage and Military Amateur Radio Society

Auction Catalogue

#001 Bendix TA12C Transmitter largely complete

#004 HRO Power Supply good condition

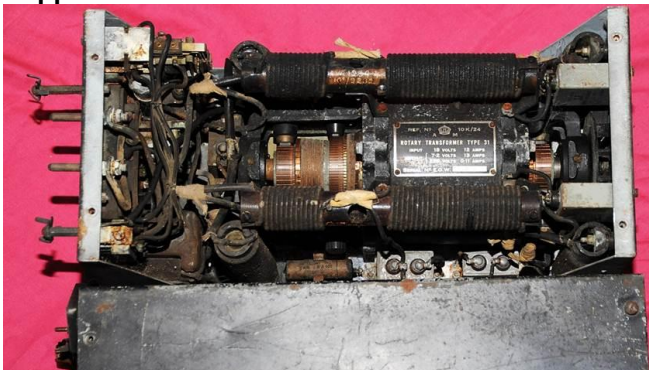

#005 LM13 Wavemeter with Calibration Book

#002 Kachina MP25 HF Packset + Handset

#003 T1154 / R1155 Rotary Transformer Power Supplies

#006 Bendix RA1B Receiver

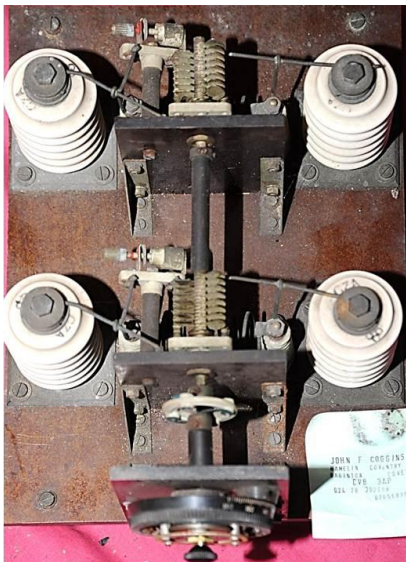

#007 AEL Power Supply Unit

#008 T1154 Case with mounting brackets as seen

#009 Filter Unit Type 421

#010 AN/APR-4 Radar Search Receiver with 3 Tuning units

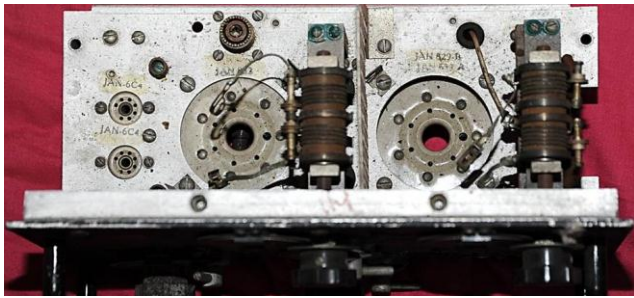

#011 TN38/APR-1 Tuning Unit

#012 PA Unit

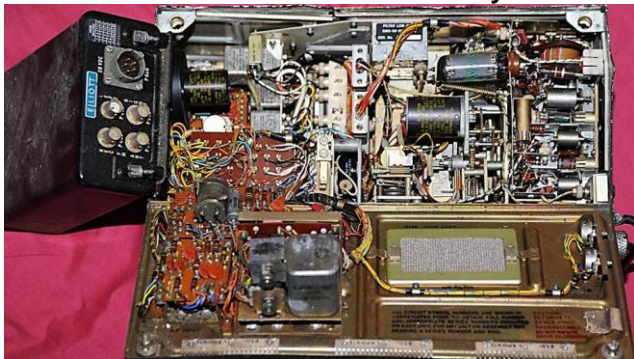

#013 AN/ARC-44 FM TX/RX 24 – 52 MHz with Control Box and Aerial Keyer

#014 AN/ARC-44 TX/RX with Aerial Keyer

#015 AN/ARC-44 TX/RX unit only

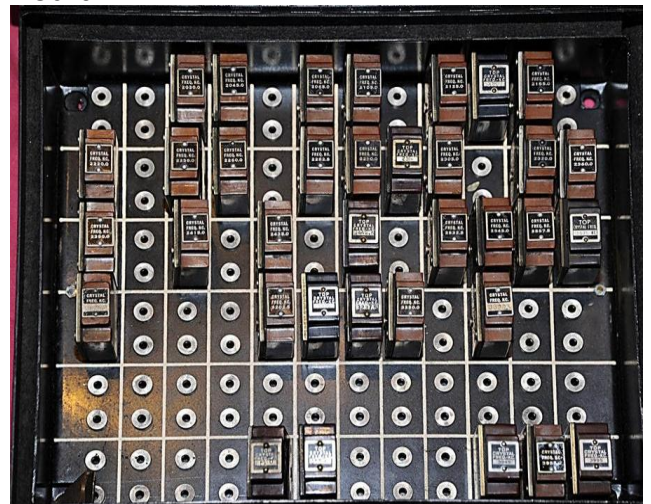

#016 Variable Vacuum Capacitor Unit

#017 T1509 Control Box

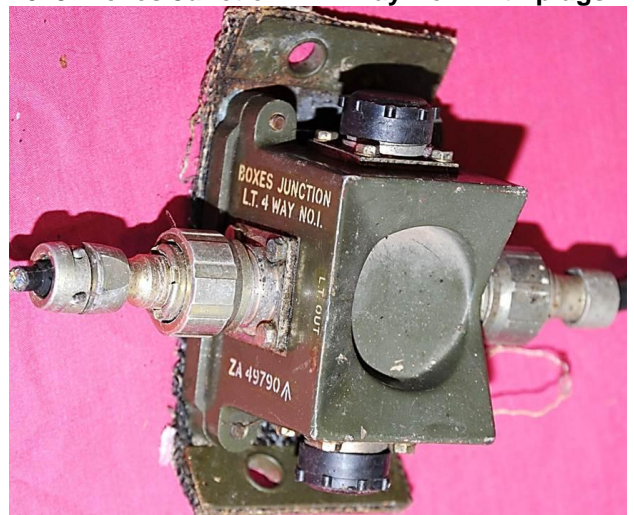

#018 Case BX 34B with crystals – possibly for BC610

#019 Radar Indicator

#023 Boxes Junction LT 4 way No 1 with plugs

#020 ART13 Crystal Oscillator Unit

#024 A43 UHF TX/RX with handset, aerial & battery adaptor

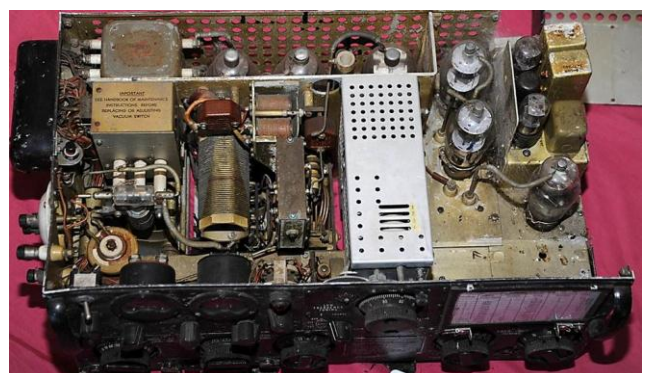

#021 ART13 Crystal Oscillator – incomplete for spares

#022 Boxes Junction LT 4 way No 1

#025 ART13 with mounting tray

#026 Battery Charger Unit

#027 Pye Automatic ATU 2 – 9 MHz

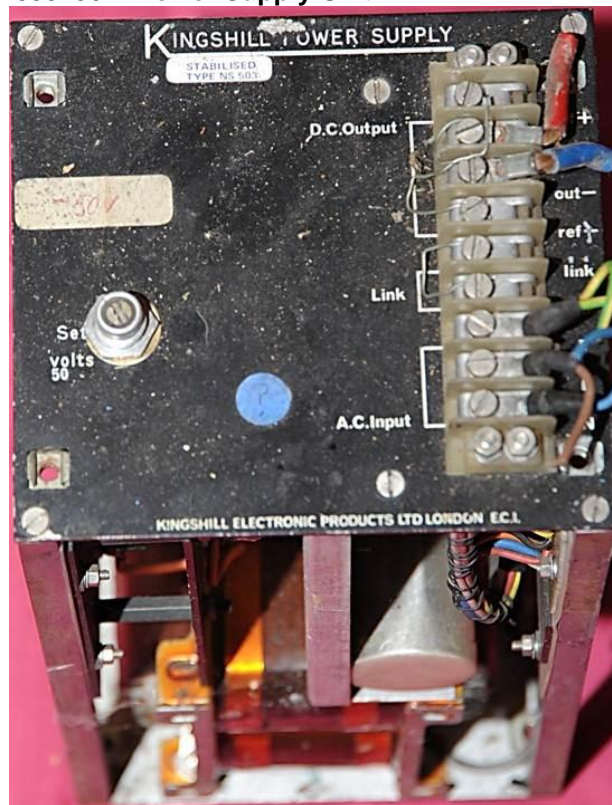

#028 VHF Airband TX/RX Receiver

#029 Collins 618T-2 HF TX/RX (ext cooling) with Control Box & Mounting Rack

#030 50 V Power Supply Unit

#031 Racal MA937 Power Supply Unit – as seen

#032 BC610? Coils – as seen

#033 BC610 PA Coil 15.5 – 20 MHz

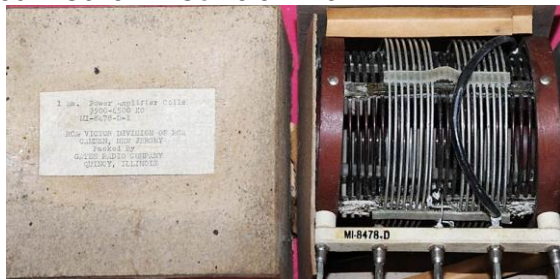

#034 BC 610 PA Coil

#035 BC610? Coils – as seen

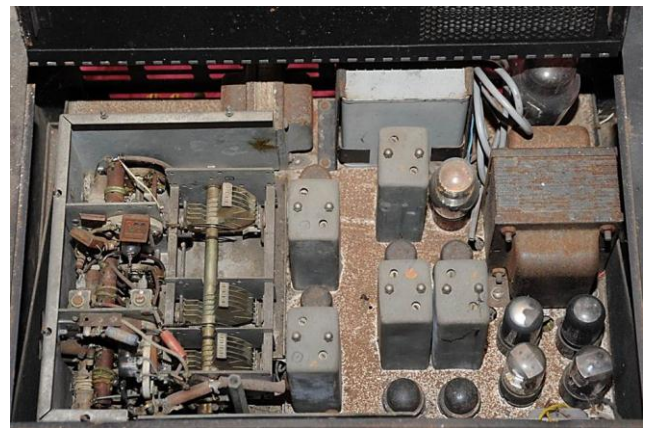

#036 BC610 PA Coil 3.5 – 4.5 MHz

#037 BC610 PA Coil 11 – 15.5 MHz

#038 Hallicrafters S27 Receiver as seen

#039 Type D Morse Key

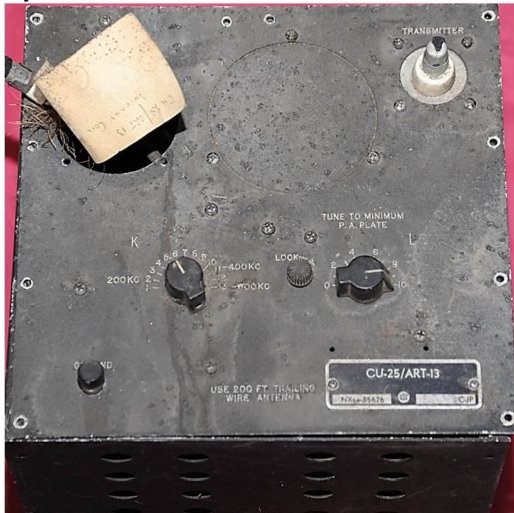

#040 Detector Radio Frequency

#041 WW2 Radar Jamming Unit?

#042 CU-25/ART13 Aerial Coupling Unit – incomplete

#045 Reel of UR67 Coaxial Cable

#043 KW2000A Solid State PSU

#046 Oscillator Unit

#044 Bendix HV Dynamotor

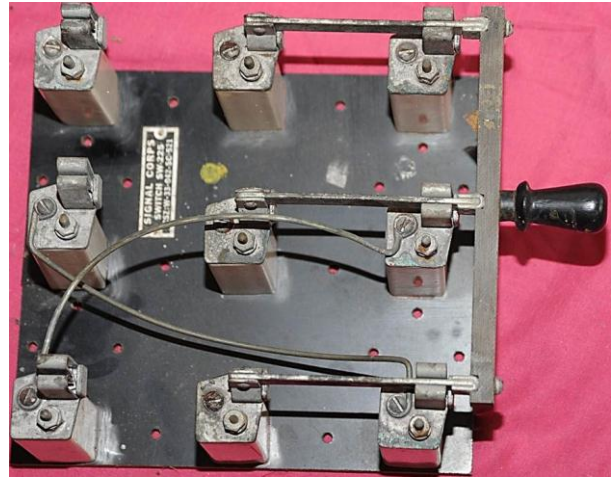

#047 Late version GEE Indicator with Waveform Generator & Receiver

#048 KW Aerial Selector Switch

#051 US ARMY Signal Corps Knife Switch SW-225

#049 "MSAC" VHF Converters with PSU

#052 12 v 7 Amp Power Supply Unit

#050 Three assorted handsets – as seen

#053 RA17L RX in mounting rack

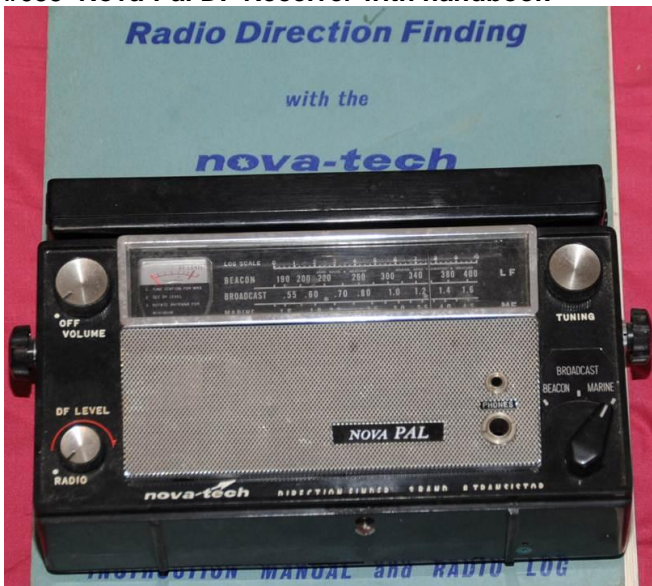

#054 Two hand microphones

#058 AR88 Choke NOS.

#055 Nova-Pal DF Receiver with handbook

#059 Drake R4 Receiver

#060 Fluke Differential Voltmeter

#056 Two Plug-in RF Ammeters (WS 1 or WS 11)

#061 GEC Miniscope with carrying case.

#057 Filament Voltage & PA Current Meters for BC191 / 375

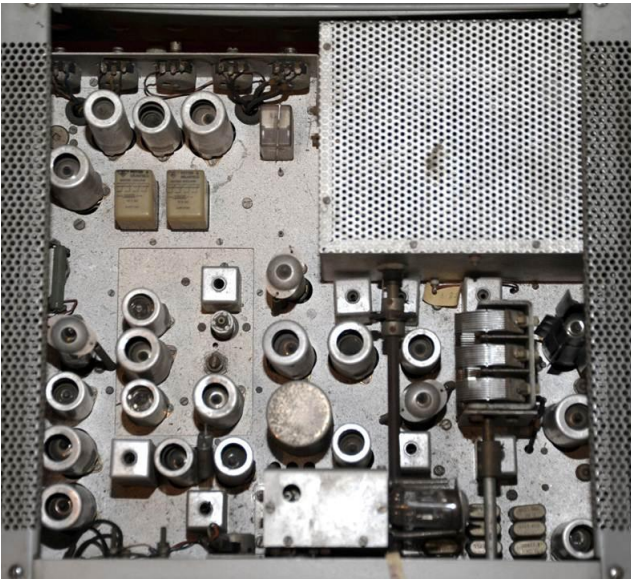

#062 KW2000B Transceiver

#063 KW2000A Transceiver

#064 KW Power Supply & Speaker

#065 Racal-Dana 9081 Synthesised Signal Generator

#066 ARC 508 Receiver

#067 Bendix DF Loop

#068 Electro-Voice Microphone

#069 Calibrated Voltage Source

#073 Three Bird Thru-line Wattmeter Elements & Marconi Attenuator

#070 Box of VHF Power Valves 829B etc untested as seen

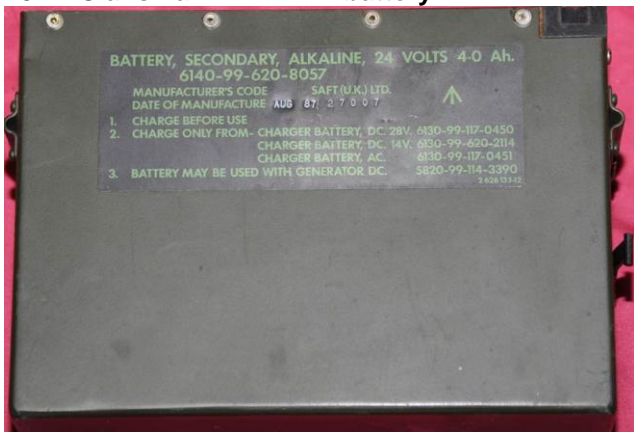

#074 Tray of assorted variable capacitors

#075 Tray of assorted variable capacitors

#071 Clansman 24 V 4 AH battery

#072 T1154 Keying Relay NOS

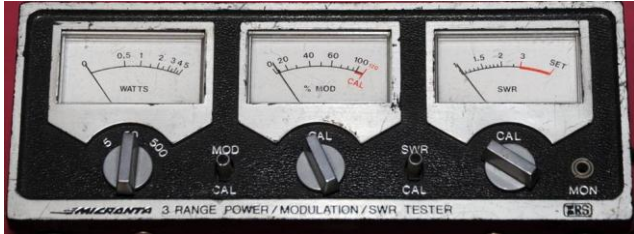

#076 BC610 Speech Amplifier as seen

#077 Micronta Power/Modulation/SWR Meter

#078 Electro-Voice Microphone

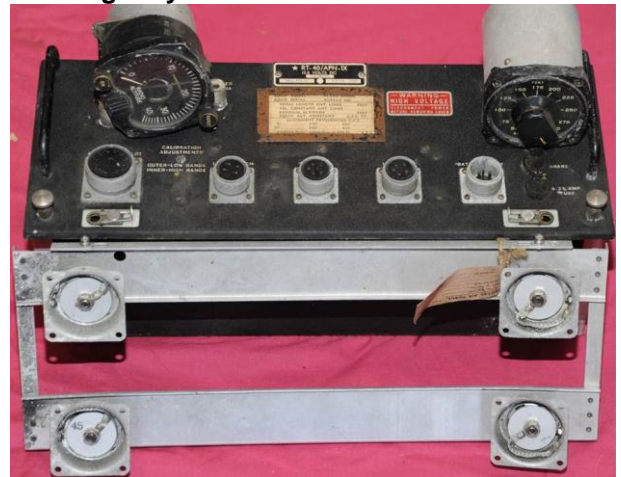

#079 Mains transformer 850 - 0 - 850 V 220 mA RMS

#080 HRO Coils

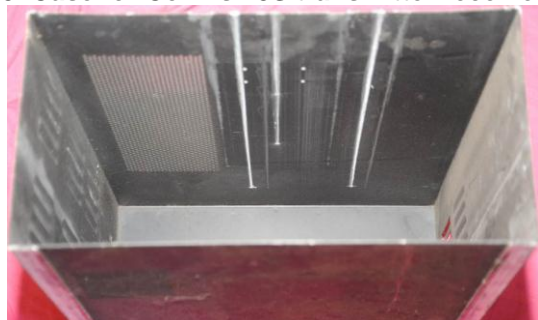

#081 APN - 1 Radio Altimeter with Indicators & Mounting Tray

#082 Racal TA4044 100 W Amplifier

#083 Case for Collins 18S transmitter receiver

#084 Collins ATU

#085 TW 2 M Transmitter with Control /PSU Unit

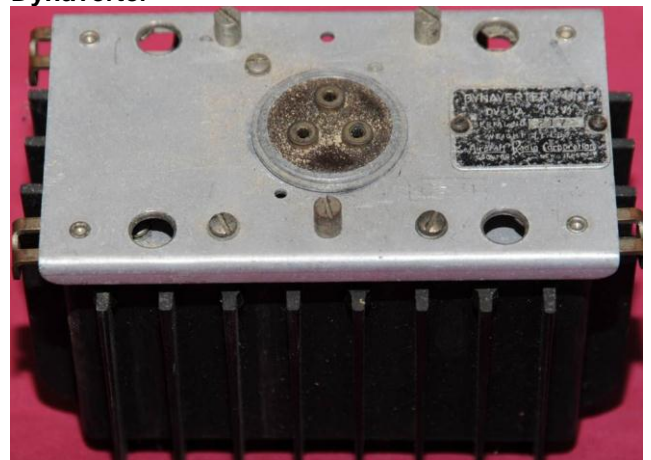

#086 National VHF Coil Set.

#087 Box meters & plugs

#088 Aircraft Radio Corporation Solid State Dynaverter

#089 TCS Receiver

#090 PP-7148/ARC Power Supply 28V in 410V out

#094 Pack of Resistors 100Ω 2 Watt Carbon Composition

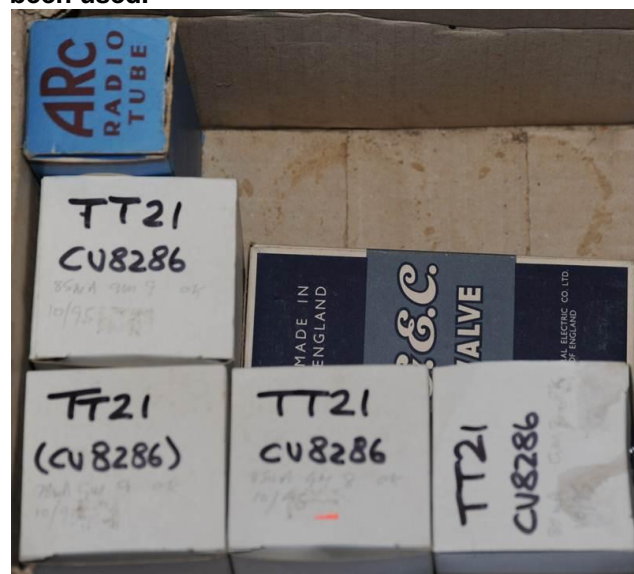

#091 Power Unit Type 104 – TR1196?

#095 Pack of Resistors 100Ω 2 Watt Carbon Composition As #094

#096 Six TT21s untested as seen - may have been used.

#092 R1155 Case

#097 Three 813s untested as seen

#093 Steel T1154 Case

#098 Four 805s untested as seen

#099 Two 805s untested as seen

#100 Three 4E27s untested as seen

Top right, Jan Coggins examining one of the items for auction.

Above: The VMARS Team who prepared the catalogue items for the forthcoming auction:
John Keeley G6RAV, Peter Jones G8CDC, Stuart McKinnon G0TBI, Chris Suslowicz G8KGS, Ron Swinburne M0WSN and Paul Higginson 2E0PRF (Behind the camera: Bronek Wedzicha M0DAF).
